PROFESSIONAL SUMMARY

Analytical **B.Tech Computer Science** Final Year student with a strong foundation in **Information Systems** and **Programming Logic**. Proficient in **SQL syntax**, **Excel-based analysis**, and **Problem-Solving logic**. Experienced in translating technical research into structured reports through Academic Presentations. Focused on leveraging data as a **Strategic Analyst** with a low-code, high-impact approach.

TECHNICAL SKILLS

- Data & Databases:** SQL (SELECT, INSERT, DDL/DML Basics), DBMS Foundations, MS Excel
- Programming Foundations:** Python (Syntax & Scripting), C, C++ (Logic), Java (Basics)
- Core Engineering:** Data Structures (Foundational), Object-Oriented Programming (OOPs)
- Tools:** VS Code, Python smtplib (Utility Scripting), Google Sheets, GitHub
- Professional:** Technical Communication, Data Presentation, Analytical Troubleshooting

TECHNICAL PROJECTS

- Python-Based Communication Script** | *Python, SMTP Protocol*
 - Developed a functional utility script to manage automated email notifications using the **smtplib** library.
 - Focused on **workflow logic** and secure authentication to handle digital data transmission efficiently.
 - Utilized Python as a tool for **process automation** and improving task accuracy through clean code.
- Technical Paper Presentation** | *Analytical Research*
 - Selected to research and present a technical paper on emerging IT trends during the college symposium.
 - Synthesized complex technical documentation into a clear, structured report for faculty and peers.
 - Recognized for clarity in **Data Communication** and technical storytelling.

INDUSTRY EXPOSURE & CERTIFICATIONS

- Microsoft Experts Live India** Hyderabad
Technical Seminar Participant (at Microsoft Gachibowli) 2025
 - Attended professional sessions on modern **IT Infrastructure** and **Enterprise Data Trends**.
 - Engaged with industry experts to understand the practical application of large-scale Business Systems.
- Python Programming Certification** | *Skill India* 2024

EDUCATION

Amrita Sai Institute of Science and Technology paritala, AP

*B.Tech in Computer Science and Engineering (**Data Science Specialization**)*

2022 – 2026

• Final Year Student | Focused on **Statistical Analysis** and **Database Management**

[SR-Sri gayatri junior college]
